

CAMENGO

Life

A beautiful and spellbinding range
of accessories to add creativity to your
home every day.

Cheerful, colourful cushions with prints, embroideries and lovely details... Delicate and optimistic, **Camengo Life** fills the home with beautifully luminous, sparkling touches.

“Paradis life”, “Winter life”, “Bruges life”, “Coulisse life” : the first 4 collections by **Camengo Life** are inspired by the crispness and radiance of nature, the welcoming atmosphere of a mountain chalet, the beauty and purity of linen, the sumptuous knitted velvet...

Peacocks and flamingos with extraordinary colours, lush, ornamental plants, vintage-style chalets and skiers and a rich palette of plains show off the wonderful texture of the fabrics... Each creation works in harmony with the cushions from the other collections thanks to their shared identity : the colour ranges and materials, dimensions and conception in perfect coordination.

Sugared almond, nude, frost, sage, celadon : soft pastels to subtly enliven the home. Assertive accents of raspberry, sunshine, pumpkin, emerald and teal enchant and radiate their richness.
More neutral tones : macaron, coffee, clay, sand, linen, milk, pebble and ochre diffuse radiant and enveloping.

The cushions are either square (45 x 45 cm) or rectangular (30 x 50 cm) to suit all desires.
The remarkable finishing work adds a fanciful touch : fringing, pompoms, braiding, piping, leather-look, bourdon stitching... for an exquisite and extremely refined look.

So, with this extensive range, you can create your own selection of cushions to create a truly unique setting for your interior.

Camengo Life... the new brand to follow, to experience more chic and original decorative accessories in the style and colours of Camengo.
